The BOK's Maxillofacial Laboratory has commenced services for doctors and patients. You are most welcomed to refer patients to the BOK's Maxillofacial Laboratory for custom made and fitted Artificial Eye & Facial Prosthesis including orbital (with A.E.), nose and ear.

The establisher, Patrick BOK, has served patients with dentures, implant prosthesis, obturators, splint appliances and facial prosthesis for over 32 years. He was an maxillofacial technician I at United Christian Hospital (UCH) and received his Higher Certificate in Dental Technology from the Hong Kong Polytechnic University. UCH was the only hospital under Hospital Authority which provided artificial eye fitting services until his retirement in 2006. Since 1994, he specialized in artificial eye fittings at UCH and serviced over 300 patients. Currently, he is one of a limited number of technicians in Hong Kong specialized in this field.

BOK's offers professional making and fitting of artificial eyes and facial prosthesis including orbital (with A.E.), nose and ear, adding colors to client's life.
